### DETAILED ACTION

The specification must identify the accession numbers and the deposit dates in accordance with 37 CFR 1.809(d).

Although Applicant states that the deposit has been made under the Budapest Treaty, no mention is made that all restrictions imposed by the depositor on the availability to the public of the deposited material will be irrevocably removed upon the granting of the patent. See 37 CFR 1.808(B).

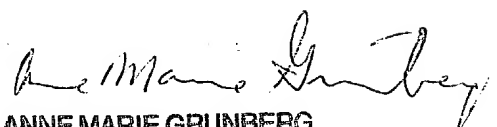

The following is an examiner's statement of reasons for allowance: Wheat flour contains wheat starch as well as other compounds. Many of these compounds are unique to wheat and can be differentiated from other flour types. For example, wheat flour contains wheat starch. Page 57, the comparison between Fig 3.7 and Fig 3.8, and other text in Technology of Cereals distinctly show differences between wheat starch and other starches such as maize. A search of the prior art has indicated that although high amylose starch and subsequently flour exists, it has not been described in wheat.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
